Jonas Månsson

Partner – Malmö

Jonas has an extensive background as an advisor, specialising in environmental law and real estate and tenancy law. His environmental law cases often involve applications for permits for water operations or environmentally hazardous activities. This includes negotiations and proceedings in land and environmental courts or the Swedish Environmental Protection Agency (MPD) at the County Administrative Board, as well as providing guidance in connection with regulatory inspections of similar activities. He has significant experience in handling compensation claims related to environmental damage and also serves as a defense lawyer in environmental crime cases.

In the realm of real estate and tenancy law, Jonas frequently deals with issues related to easements, property formation, servitudes, and property installations. He has extensive experience in matters concerning expropriation and similar procedures, including questions about intrusion compensation and other forms of compensation associated with these processes. Jonas has substantial expertise in issues related to agricultural activities, encompassing both land and forestry, within the domains of both environmental and real estate and tenancy law.

Jonas leads the law firm's environmental law group.
