Sofie Strempel

Lawyer – Gothenburg

Sofie deals exclusively with business legal matters, at both the Swedish and international levels. The client relationships mainly involve Swedish companies, often with connections to Germany, and the assignments frequently revolve around advisory services on establishment matters. Sofie assists in contract drafting and negotiations as well as in other legally significant matters for the companies. Sofie's main areas of expertise are real estate law, commercial contract law, and litigation in court and arbitration proceedings.

Through her work at law firms in Germany and her many years of experience with German-speaking clients, both inbound and outbound, Sofie has gained solid experience and, notably, an understanding of German business culture.
